

ser\_enable\_int

```
graph LR; A[ser_enable_int] --> B[write_to_port]
```

A diagram showing a call from the function `ser_enable_int` to the function `write_to_port`. The `ser_enable_int` box is shaded gray, and the `write_to_port` box is white. A blue arrow points from the right side of the `ser_enable_int` box to the left side of the `write_to_port` box.

write\_to\_port
