

subscribe_interrupts

unsubscribe_interrupts

mouse_write_cmd

```
graph LR; A[subscribe_interrupts] --> C[mouse_write_cmd]; B[unsubscribe_interrupts] --> C;
```

The diagram illustrates a dependency or relationship where two functions, 'subscribe_interrupts' and 'unsubscribe_interrupts', both point to a target function 'mouse_write_cmd'. The arrows indicate that both functions interact with or depend on the 'mouse_write_cmd' function.
